

Seamless Catering for PwC

The easiest way to connect with local caterers.

Seamless is proud to partner with PwC to help simplify the process around ordering food and paying for those purchases. Seamless and PwC have signed a master service agreement that makes it fast and easy to sign up for a new account. Contract terms have been pre-negotiated and the associated benefits will be passed along to PwC employees.

How it works:

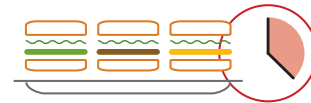

1. Enter the meeting or event information, browse caterers, view menus and place an order.

2. Orders are sent electronically to the caterer and you receive immediate confirmation of your order.

3. Seamless reconfirms all orders one day prior to the scheduled delivery date.

4. Your catering order arrives at your office at the designated delivery time.
