

Seamless Catering for Georgetown University Medical Center

The easiest way to connect with local caterers.

Seamless is proud to partner with Georgetown University Medical Center to help simplify the process around ordering food and paying for those purchases. In support of the Finance Department's goal of eliminating the use of ProCards for food-related expenses, Seamless and GUMC have signed a master service agreement that makes it fast and easy to open new accounts. Contract terms have been pre-negotiated and the associated benefits will be passed along to all University-affiliated groups.

With Seamless, you'll get easy online access to a wide variety of caterers and receive just one invoice for all orders placed. Here's how it works:

How it works:

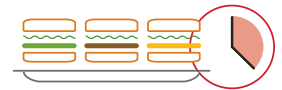

1. Enter the meeting or event information, browse caterers, view menus and place an order.

2. Orders are sent electronically to the caterer and you receive immediate confirmation of your order.

3. Seamless reconfirms all orders one day prior to the scheduled delivery date.

4. Your catering order arrives at your office at the designated delivery time.

Why use Seamless for your catering needs?

Save Time

- » Place catering orders online from a wide selection of caterers
- » Re-order your favorite menus with the ability to save favorites
- » Pay one invoice instead of processing multiple payments to different caterers

Save Money

- » Set budgets and rules to manage who can order, when and how much
- » Allocate costs across multiple Work Tags to ensure finance can track each order to the correct Fund, budget line, and/or PO
- » Leverage real-time reports to track catering spend

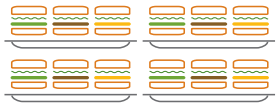

Save Hassle

- » Get access to an extensive network of caterers who offer kosher, gluten-free and healthy options
- » Take advantage of meal packages, special menus and options for any event
- » Leverage our ASAP caterers for last-minute meetings and events

Seamless Catering for Georgetown University Medical Center

The easiest way to connect with local caterers.

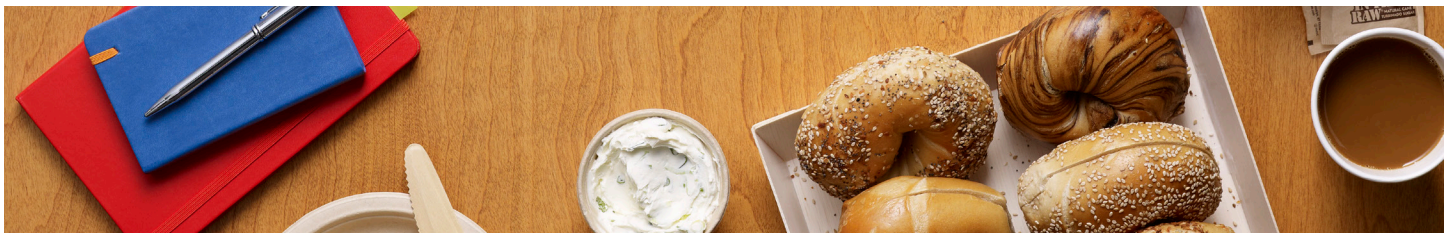

Seamless catering by the numbers:

10-30%

- » Seamless works with more than 50 caterers that all deliver GUMC
- » Our Catering users estimate that, by using Seamless, they cut their ordering time in half.
- » We will help GUMC save 10-30% on the administrative costs associated with food orders.

What GUMC has to say:

GEORGETOWN UNIVERSITY
Georgetown University Medical Center

We began using Seamless in early September 2014 and we have had tremendous success using the service. Core to our success is the combination of easy ordering, simple invoicing and, most importantly, Seamless' ability to track multiple "Work Tags" per order. This has enabled us to better track each order to the correct Fund, budget line, PO, etc. Because of this success, we are encouraging all GUMC-affiliated groups to use Seamless for food ordering

Sean Hawkins
Chief of Staff
GUMC Office of the EVP

What our caterers say:

GEPPETTO CATERING 
Washington's Choice for Corporate Catering

"We are so pleased to be a part of the Seamless family of caterers. It is a pleasure serving all of the wonderful clients through this innovative platform."

Josh Carrin, Geppetto Catering
Washington, D.C.
